The only reason you'd really buy this is if you're too lazy/tired of fishing for voices or doing it to have all them since some are unable to be fished Dizzy,Kum,Johnny,Etc. Just please buy this on a sale. It's not worth \$11.99 \$3 to \$4 is fine just if you want dlc voices (like me wanting dizzy's) Sadly this is the only way to get the full casts voices (Besides Baiken and Answer who are seperate from this pack).
